

Azowipe™ - hard surface disinfectant.

Azowipe™ has been the leading product of its type for over 25 years. Available in either large or medium size canisters Azowipe™ is convenient for use in all clinical environments. Should a spray dispenser be required then a convenient 500ml trigger operated version can be purchased.

With the increase in virulent organisms the introduction of Azowipe™ as part of a robust infection control protocol is now even more important. Isopropyl alcohol, the active component of Azowipe™ is acknowledged by leading authorities to be an effective medium for the routine disinfecting of clinical surfaces.

- Kills bacteria in under a minute - proven to be effective against a variety of organisms including MRSA.
- Made from viscose rayon nonwoven - strong and durable in use.
- Manufactured at Vernon-Carus Ltd. - assurance of complete quality control.
- Foil sealed - prevents evaporation in storage.
- Suitable for all hard surfaces - one product from a single source.
- Contains NO preservative - no smearing or streaking when in use.
- Specially designed canister - easy to dispense wipes.
- Available in Spray, Catering and Sterile formats - complete Azowipe range with the same effective formulation.
